

MUZZLE BRAKE. Mod.WS1701

M3 International, in collaboration with Wolfsoul Technology, presents the STOP RECOIL muzzle brake.

Combining principles never used before in the so-called muzzle brakes, M3 International, in collaboration with Wolfsoul Technology, has managed to produce a system that reduces the recoil of the weapon in which it is installed by more than two thirds.

The system has been tested in a shooting gallery and on a test bench, having widely exceeded in efficiency the rest of muzzle brakes available in the market.

DIMENSIONS: 150x 32 mm.

MATERIAL: STAINLESS STEEL H9

WEIGHT: 250 grs.

The operation of this device and test results are available at:
